

# The McClean Report is more than just a snapshot, it's a complete market research service.

The McClean Report is for those professionals involved in business planning, strategic or product marketing sales, purchasing, securities analysis, or technology development; or if you simply need an authoritative study of the semiconductor industry.

Newsy stories within the industry

5-year market forecast in key areas

With historical data and detailed information on the current state of the industry

Illustrative vast reading, with a special dynamic interdependence

## The McCLEAN REPORT

# Complete Market Research Service All Year Round

**January  
Semiconductor  
Industry Flash Report**

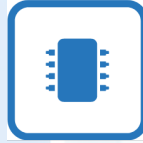

## **Quarterly Reports**

February  
May  
August  
November

With more than 400 pages of research, bi-annual and quarterly updates on international semiconductor market conditions, plus an extensive analysis of each of the major IC product segments.

**Global Industry Outlook  
and Cycles**

**Leading IC Suppliers and  
Foundries**

**Capital Spending Trends**

**Market Summary by  
Device Type**

**Memory Market Overview**

**Flash Memory and DRAMs**

**Micro-component Market  
Overview**

**Microprocessors  
and Microcontrollers**

**Analog Market Overview**

# A legacy that you can trust, offered now in TechInsights Platform

Consistent • Insightful • Accurate • Concise • Experienced • Affordable • Reputable

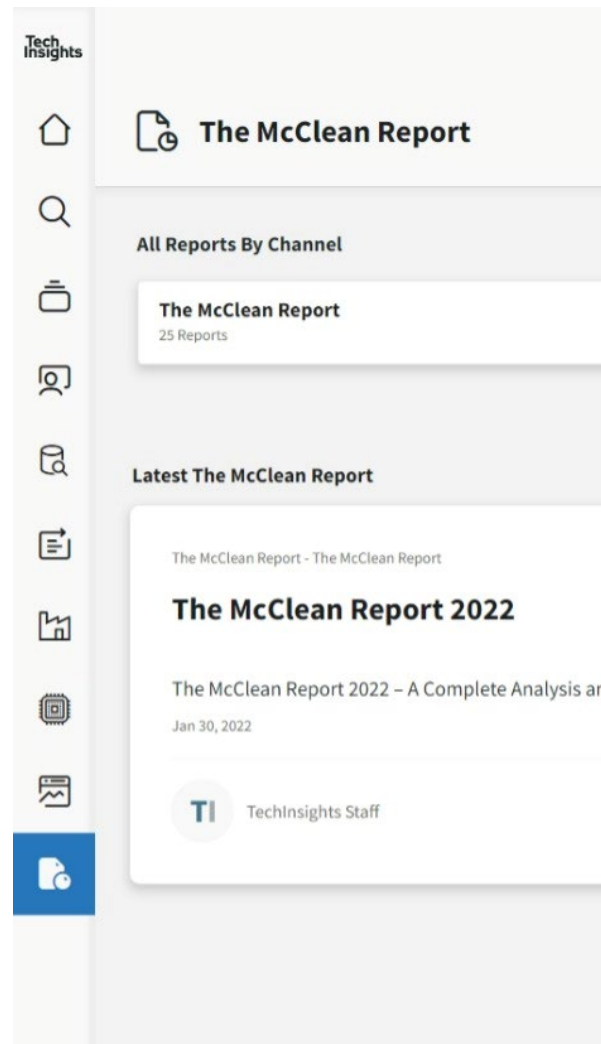

The most comprehensive semiconductors report at the lowest cost.

We cover communications, automotive industrial, semiconductor manufacturers government/military, and more.

You don't need to be an expert in semiconductors. A broad variety of analyses and perspectives, a click of a mouse away.

## Stay informed and make the best decisions, to suit your purpose.

# Authoritative Semiconductor & Microelectronics Intelligence Platform

With over 300 talented analysts and engineers, and a unique reverse engineering competency, we provide advanced technical and market analysis to organizations which will help guide them to make fact-based technology and intellectual property decisions.

## About TechInsights

**The world's most trusted source of actionable, in-depth intelligence related to semiconductor innovation and surrounding markets.**

Our content informs decision makers and professionals whose successes depend on accurate knowledge of the semiconductor industry—past, present, or future.

Our unmatched reverse engineering analysis, images, and expert commentary are accessed through the TechInsights Platform, the world's largest research library of semiconductor and market analysis. Our customers include the most successful technology companies, who rely on TechInsights analysis to make informed business decisions faster and with greater confidence.
